PROFILE SUMMARY

Highly motivated and detail-oriented Frontend Developer with strong experience in building responsive, user-centered web applications using React, Tailwind CSS, JavaScript, and modern UI libraries. Skilled at converting complex ideas into clean, functional interfaces with excellent performance and accessibility. Passionate about problem-solving, UI/UX principles, and delivering pixel-perfect components. Seeking an opportunity to contribute to a dynamic team and build impactful digital products.

PROJECTS

Bank Website

[SOURCECODE](#)

React, Tailwind CSS

[WEBSITE](#)

- A fully responsive modern banking platform landing page inspired by real-world digital banks. Features elegant gradients, smooth animations, reusable components, and mobile-first layouts. Implemented modular architecture for clean code and scalability.

AI Website

[SOURCECODE](#)

React, Tailwind CSS

[WEBSITE](#)

- A futuristic website showcasing an AI service platform with rich animations and interactive UI. Designed with a modern gradient aesthetic and micro-interactions that enhance user engagement.

E-COMMERCE Website(Frontend)

[SOURCECODE](#)

React, Tailwind CSS

- The website is a modern e-commerce platform designed to provide an intuitive and seamless shopping experience for users. It features a clean and responsive layout, showcasing a diverse range of products with high-quality images and detailed descriptions. Users can easily navigate through categories, utilize advanced filtering options, and enjoy a streamlined checkout process.

E-COMMERCE Website(Backend)-In progress

NodeJS, ExpressJS, MongoDB
